Our History

# Reinventing electrical components since 1950

The story of Font Design Group is the story of one family and one passion.

More than 70 years ago, Joan Font began marketing his first surface-mounted switches, thus embarking on a project that would go on to have a long history in the electrical material sector.

Since the very beginning, we have focused on doing things differently and paying close attention to every detail. None of this would have been possible without our commitment to innovation, our desire to experiment and our drive to perfect our solutions, improving each day to offer the absolute highest quality products.

Today, Font Design Group is present in more than 60 countries, offering specialist high-end electrical mechanisms through its two main brands:

Fontini, 100% hand-crafted switches made using high-quality natural materials, embracing the value and essence of our past.

Font Barcelona, luxury mechanisms that invite you not only to touch them but also feel them.

*Fontini*

Our Vision

# Lighting up the world through design

Our company was founded to share a vision based on the conviction that electrical fittings can also be inspiring.

We see the switch not just as a functional element but also as a decorative piece.

We are a family group with one purpose: light up the world through our vision, brands and designs.

The Brand

# Inspired by the past, designing for the present

Due to our strong commitment to authenticity and craftsmanship, we produce our collections by hand in local facilities using natural materials such as porcelain, wood and brass.

We draw inspiration from the past to create timeless switches that will take you back in time.

The various components of our Fontini collections are produced and assembled at our porcelain production centre in Santa Perpètua de Mogoda, Barcelona.

Our mission is to create high-quality, durable products whilst championing the legacy of craftsmanship and promoting local and sustainable manufacturing processes.

## DO

Inspired by the iconic GARBY porcelain collection, this is a contemporary version with a minimalist design.

P. 14

## GARBY

The traditional retro classic. The GARBY collection boasts a timeless, nostalgic design, reminiscent of authentic switches in rustic environments.

P. 18

## DIMBLER

Based on a simple design with carefully chosen materials, the DIMBLER collection adds exceptional quality and beauty to any space.

P. 22

## DO LOW

The simple and straightforward shapes of the DO Collection with a strikingly flat and functional design. Thanks to their recessed installation, these products can be integrated into more contemporary spaces.

P. 26

## GARBY COLONIAL

The authenticity and traditional feel of the GARBY collection with added practicality, designed for installation in an universal flush-mounted box.

P. 30

## VENEZIA

A versatile and elegant contemporary collection that adds a touch of distinction to even the most classic spaces.

P. 34

## 1950

Commemorating the very first Fontini series from 1950, this is a reissue of a very special classic to celebrate our brand's history.

P. 38

DO Collection

# A contemporary version of the porcelain switch

The DO collection is inspired by the Garby collection's traditional rotary switches while adding new pure shapes, giving it a minimalist design for easy incorporation in any space.

The different available finishes for the brass knobs and screws give it a highly attractive aesthetic.

Combining natural materials such as porcelain, wood or metal, the DO collection features switches in white or black porcelain, together with porcelain and natural wood frames in a range of different finishes.

GARBY Collection

# The authentic retro-style icon

The GARBY collection, with its retro design and hand-crafted manufacture, offers a range of switches for rural environments or those seeking a vintage touch in urban settings, recreating the charm of yesteryear through its meticulous design and fine materials.

The porcelain body, robust but delicate in finish and appearance, perfectly matches the rotary knob, also available in wood or brass.

This collection offers great versatility for installation, whether surface-mounted or with a flush-mounted box.

DIMBLER Collection

# The simplicity and essence of a switch with an unique aesthetic

The DIMBLER collection harks back to a time when switches first began to appear in our homes but incorporates the quality, materials and elegance that was not possible in the past. Intended for occasional and individual use, it preserves the essence of the past while providing the safety of the present.

Designed as a decorative complement, it is available with a 100% porcelain body in black and white or in various finishes combined with brass.

The result is an exceptional design that adds distinction to any space.

DO LOW Collection

# Simplicity with a thin and functional design

The DO LOW collection is inspired by traditional rotary switches and Scandinavian minimalism to produce a design of pure forms.

Its aesthetic makes it easy to incorporate into contemporary spaces. It represents a halfway point between formal authenticity and the use of fine materials.

The brass knobs and screws are functional whilst simultaneously emphasising the collection's unique appearance.

The collection combines natural materials such as porcelain, in black and white, with wood and metal in a range of different finishes.

The DO LOW collection is compatible with universal flush-mounted boxes.

GARBY COLONIAL Collection

# A glance towards the past, with as little thickness as possible

Whilst preserving the unique iconic features of GARBY, the GARBY COLONIAL adds the practicality of universal flush-mounted box installation. Tradition and craftsmanship combined with efficient installation.

Porcelain, wood and metal; natural materials that give GARBY COLONIAL its unique, distinctive features.

VENEZIA Collection

# Classic forms that grab everyone's attention

With the VENEZIA collection, functionality and style come together to add a touch of elegance to any classic interior design. A collection offering a variety of wood-based designs, shapes and finishes to create an eye-catching aesthetic.

As a universal flush-mounted series, its modular design and wide range of shapes and finishes give it unparalleled versatility.

VENEZIA sets the standard as a contemporary series that adds a touch of distinction to any classic setting.

1950 Collection

# The reissue of a Fontini classic

The 1950 collection was created to celebrate Fontini's 60th birthday. This collection simply exudes glamour, tradition and sophistication.

The 1950 collection replicates the operation and aesthetics of Fontini's very first collection, launched in 1950, but produced to the highest quality standards demanded by today's regulations.

# Online Installation Guide

A quick guide with clear steps so that you can see how easy it is to install our switches.

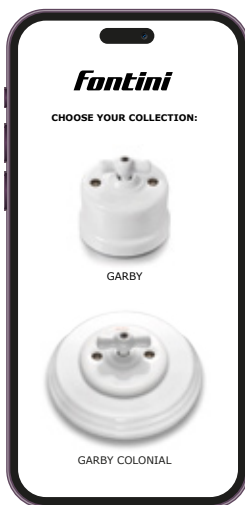

In the form of a practical example, you will find a step-by-step guide explaining all the different details to take into consideration so that you can easily, safely and efficiently install your product.

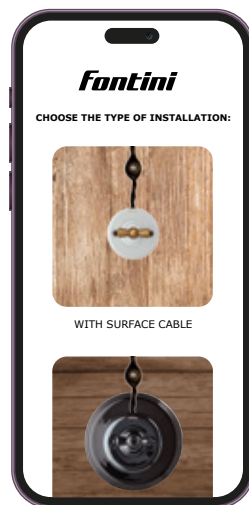

Access the guide on your mobile phone for greater convenience using this QR code, which can also be found on the product packaging and on the fontini.com website.

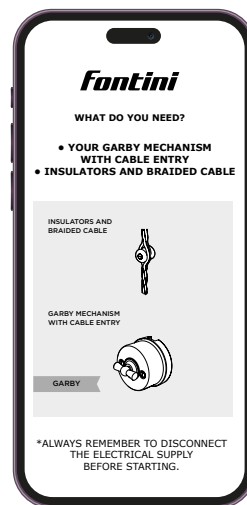

## How to use the installation guide

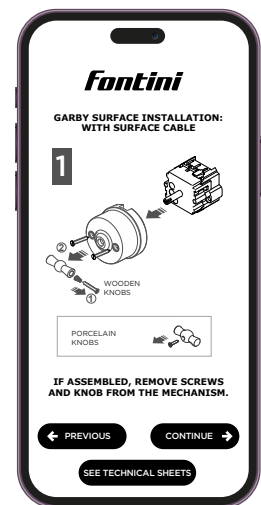

1. Select the collection.

2. Select the desired installation type.

3. Review the required components.

4. Follow the instructions as shown.

You can also find **technical data sheets** for all available applications.

Share it on social media!

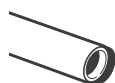

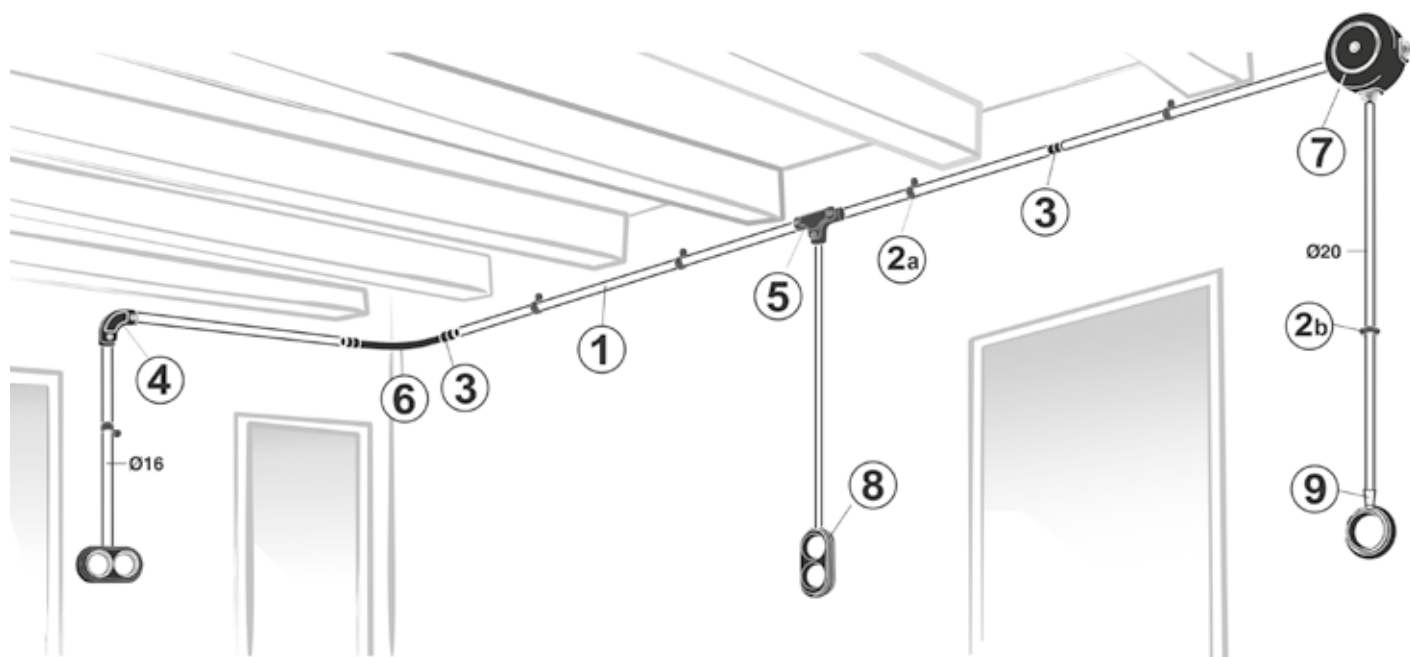

Once you have installed your product, **share some pics on Instagram**, tagging our profile, and get hundreds of followers to see your handiwork!

@fontini.official

## IR DETECTOR

Rated voltage	110 - 240 V~
Frequency	50 - 60 Hz
Consumption	0.5 W
Detection area	Horizontal 180° (wall-mounted)
Protection	IP20
Switch-off timer	15 s - 16 min, Impulse
Range	max. 10 m lateral, max. 3 m frontal
Coverage area	150 m <sup>2</sup> - 1.1 m mounting height
Installation height (min. / max. / recommended)	1 m / 2.2 m / 1.1 m
Switching power	2300 W, cos φ = 1 1150 VA, cos φ = 0.5 300 W LED
Type of contact	1x μ-contact, tungsten pre-contact NO contact
Switching threshold	10 - 200 Lux
Ambient operating temperature	-25 to 50°C

- Detection area:**  
 1) Lateral range  
 2) Frontal range

# Technical Data

## THERMOSTATS

	Thermostat	Connected thermostat
Rated voltage	100 - 240 V~	
Frequency	50 - 60 Hz	
Power	1.5 VA	0.55 W
Terminals	- 2 terminals (L and N) for line and neutral - 2 C-NO relay terminals with 5 (2) A dry contact	- 2 terminals (L and N) for line and neutral - 2 terminals for outdoor temperature sensor (Ref. 79732000) - 2 C-NO relay terminals with 5 (2) A dry contact
Type of connection	Screw terminals	
Supported cable cross-section	1 x 1,5 mm <sup>2</sup>	
Systems	Heating / Air conditioning	
Operating modes	Manual/Off	Automatic, Manual, Reduction, User absent, Protection, Off, Timed manual
Set-point temperature	4°C to 40°C	
Thermoregulation algorithm	ON/OFF	ON/OFF or configurable PID
Readout resolution and settings	0.1 °C	
Thermal differential	0.3 °C	Adjustable via app: from 0.1 °C to 1 °C
Ambient temperature display	0°C to 40°C	
Temperature display updated	Every 10 s	
Reading accuracy	±0.5 °C between +15 °C and +30 °C ±0.8 °C at extremes	
Protection	IP 30	
External sensor	-	Maximum cable length: 10 m Use stranded cable with minimum cross-section of 0.5 mm <sup>2</sup>

## HOTEL CARD SWITCH

	1 Microswitch	2 Microswitches
Rated voltage	250 V~	
Rated current	5 A	2 x 5 A
Card dimensions	5.4x8.6 cm, thickness 0.76 mm, according to ISO7816	
Type of connection	Faston terminals	
Ambient operating temperature	-5 to 40°C
