The new Charlotte covers, the latest addition to the Dimbler collection, are born from the interaction of handcrafted de-

licacy and the precision of contemporary design. Their name, inspired by the celebrated French cake and its embracing shape, turns the piece into a tribute to that perfect union of beauty, structure, and an instantly recognisable aesthetic. Crafted in brass and detailed with embossed floral motifs, they reinterpret the traditional metalwork of the early 20th century. This heritage lives on in every curve, preserving the memory of craftsmanship and revealing how material gains its character. Charlotte is, by essence, versatile. It finds its place naturally in classic interiors while also engaging seamlessly with contemporary spaces.

In nostalgic environments, it brings a presence that accom-

panies without imposing; in modern projects, it

introduces a distincti-ve accent that breaks

neutrality and adds depth. Its ability to

bridge eras makes it suitable both for

sober compositions and for more

experimental proposals seeking vi-

sual texture. The available finishes,

the satin gold, antique bronze and bright

chrome, expand its identity and

offer a play of reflections, intensities

and contrasts. Paired with white or black

porcelain bases, the cover further enhances its

Crafted in brass and available in three finishes, they can be combined with either white or black porcelain bases.

*Satin gold  
Bright gold handle  
White porcelain base*

*Bright chrome  
Bright chrome handle  
White porcelain base*

*Antique bronze  
Aged brass handle  
Black porcelain base*

Offers a versatile installation system and accessories that adapt the mechanism to each configuration.

*Independent installation*

*Installation with wooden or porcelain frame in different finishes*

*Installation with wooden base in different finishes*

Designed for maximum installation flexibility, mechanisms with Charlotte covers are available with or without cable inlet, allowing for surface mounting or flush mounting with a wall box, and for independent installation, with base or with frame, just like the other mechanisms in the Dimbler collection.

Visit our website to see the list of required components for each installation type.

Charlotte is available in three functions: two-way switch, intermediate switch and push button. It can also be combined with the other standard functions from the Garby and Garby Colonial series, expanding the possibilities of the Dimbler collection..
